

Register Early.

Here's why!

Accommodations are tricky! We have room for a maximum of 25, if all room use is optimized. Non-optimized, we can only fit 15. **Those who register early get their choice of the best rooms.** Because room assignments are tricky, we are not listing them here, but in cost they range from as low as \$72/PP/DO/Early Bird (pull out sofa in living room) to \$365/PP/DO for huge luxury, master bedroom with private bath. (This price is for 4 nights, or \$18 - \$91 PP/per night). The rest of the rooms are in the middle cost range, depending on location and amenities. First come, first served.

Base cost for flights from San Francisco to Vancouver, rented ski vans for 4 days, 10 meals, 4 days of lift tickets, and all taxes and fees, is \$495 per person. To that, it is necessary to add the cost for the room.

Spring 99 Weather:

We cannot guarantee the weather. Thanks to La Nina weather patterns, NOAA forecasts a "cooler and wetter winter" in the Pacific Northwest. This means that what is normally great skiing at Whistler/Blackcomb is likely to be even better than usual. For more info from NOAA, see: www.elnino.noaa.gov/lanina.html

More about cost?

This is a *not-for-profit* business event of Warm Floors™, with a total budget for the back-to-back Warm Seminar and Warm Retreat of \$25,000. We will not recapture all that cost, and the company subsidizes this event to make it affordable. This is our way of returning the favor to all of our supporters over the years, and as well, a very effective way of building durable long lasting relationships. It's worth it!

Accommodation Assignments:

When we receive your deposit of \$100.00, you will be issued a reservation number. In mid-January, we will begin making assignments for room and building. You will get to choose your room by the number; in other words, first deposits get first choice. So don't delay; reserve today.
